DESIGN YOUR DISPLAY

Personalize your Ford **MUSTANG®** as often as you like with the available customizable 12" color LCD instrument cluster. Through the Pony button on the steering wheel, you decide what's displayed: any combination of 1 to 3 virtual gauges (choose from 8); exhaust mode; Track Apps™; a performance shift indicator (3 types with configurable rpm); launch control; and more. Enhance it further with MyColor®. Set your primary, secondary and ambient lighting colors. The cluster, like everything else, is oh-so responsive.

MUSTANG® TRACK APPS™

LIGHT 'EM UP. At the track. In the cluster. With standard line-lock, you can "heat up" the **MUSTANG's** rear tires. As they smoke outside, you'll see them smokin' here as well.

NO STOPWATCH NEEDED. With the lap timer, record your time and average speed at 3 separate tracks. Store up to 100 sessions (a session is 25 laps) in Track Mode.

402m OF EXHILARATION. Start your launch with the iconic "Christmas tree." 3-2-1. Gone! The acceleration timer shows you how quickly you reach 402 meters.

VENOMOUS. The most powerful street-legal Ford **MUSTANG®**. Aerodynamically advanced, track-ready, and spitting venom, the Shelby® GT500® model is engineered to dominate whatever crosses its path.
