Genuine Ford Parts

Peace Of Mind Service Inspection

Ford Benefits Our commitment to you

Convenience. Reliability. And no nasty surprises. That's what service should be. And that's exactly what Ford promises when you have your car serviced. Feel at ease knowing that your car is being serviced by factory trained technicians using specialised diagnostic equipment. After all, nobody knows your Ford better than we do.

Service Made Easy

When you service at Ford with our factory trained technicians, your peace of mind is our top priority. We use only Genuine Ford Parts and provide you with a vehicle health report, so you know your vehicle is being maintained the way it should. Take advantage of all the Ford Service Benefits on offer.

Intelligent Oil Life Monitoring System (IOLM)

The way you drive can have a significant impact on how quickly your oil is used. IOLM is a smart system that monitors oil levels and alerts you when the oil needs changing. See www.ford.co.nz/owners/intelligent-oil-life-monitoring

Intelligent Oil Life Monitoring System (IOLM). The way you drive can have a significant impact on how quickly your oil is used. IOLM is a smart system that monitors oil levels and alerts you when the oil needs changing. Discover the full range of Ford Service Benefits by visiting www.ford.co.nz/owners/service.

1. Warranty conditions and exclusions apply. 5 year/150,000 km Ford Express New Vehicle Warranty applies to demonstrator, dealership and service loaner first registered by the Authorised Ford Dealer from 1 September 2018. Warranty period commences on the date of delivery except where the vehicle is a dealership, demonstration or service loaner vehicle, in which case it commences on the date on which it was first registered by an Authorised Ford Dealer. Tyres and tyre tubes are excluded. Shock absorbers and batteries are subject to shorter warranty periods. See www.ford.co.nz/owners/warranty for further information.
2. Is available at participating Dealers. See www.ford.co.nz/owners/service for full terms and conditions. Vehicle model availability may vary. Available at participating dealers on scheduled logbook services or overnight warranty repairs. For private, business and fleet customers. Booking required. Participating Dealers may require customers to comply with general usage conditions.

This brochure was designed to provide you with a general introduction to your Ranger and was correct at time of going to print. However, Ford's policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer.

Disclaimers												
1. Fuel consumption as per ADR 81/02 (combined cycle) and emissions as per WLTP3 and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, options and accessories, condition and use. 2. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations. Mud/Rut + Sand + Rack Crawl + Baja Mode intended for off-road use only. 3. Maximum towing capacity-braked using a Genuine Ford tow pack. Standard on XL, XLT, Tremor, Wildtrak, Platinum, and Raptor models. To comply with regulations and vehicle GCM and GVM limits, the weight of any load transported by the vehicle may need to be restricted. For further details regarding load weight restrictions, please consult your authorised Ford Dealer and refer to the Owner's Manual. Drivers will need to create a profile of their trailers in SYNC to support this system. 4. Drivers will need to create a profile of their trailers in SYNC to support the Trailer Brake Controller and must set the gain on the Brake Controller unit. 5. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. 6. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. All Pick-up box dimensions take into account the Drop-In Bedliner where standard. 7. Vehicle dimensions are approximate and subject to individual vehicle variances, and should be confirmed before fitting any accessories or otherwise relying on this value. 8. Vehicle length measured from front license plate bracket. 9. 800mm Water Wading achieved when maintaining a steady speed of 7 km/h. 10. Where two values shown - 2.0L Turbo value shown first and then 3.0L V6 Diesel. 11. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with the lightest possible combination of factory fitted optional equipment included. Minimum Kerb Weight includes the vehicle with 10L of fuel, without occupants, luggage or cargo and with the lightest possible combination of factory fitted optional equipment included. All payloads are calculated by deducting either the vehicle's Kerb Weight, Minimum Kerb Weight or Tare Weight from its Gross Vehicle Mass (GVM). Payload (based on Kerb Weight) is the maximum combined value of occupants, cargo, added accessories, added structures and tow ball download (when towing). Ranger Raptor payload is calculated by deducting the vehicle's Tare Weight from its Gross Vehicle Mass (GVM). All Chassis Cab payloads, kerb and tare weights exclude weights of tray bodies. Vehicle weights are approximate and subject to individual variances. Vehicles should be weighed before and after adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM), Gross Combined Mass (GCM) and Gross Axle Weight Ratings are not exceeded. 12. Driver- assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Pre-collision Assist with Automatic Emergency Braking detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See Owner's Manual for Limitations. Reverse Brake Assist functions when in reverse and travelling at a speed of 2-12 km/h. 13. Intelligent Adaptive Cruise Control (IACC) uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator or via steering wheel controls. In some circumstances, iACC will use map data to set the vehicle speed. Ford recommends keeping map data updated by fully activating the vehicle's FordApp Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. Adaptive Cruise Control and Lane Centring has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby when iACC is active. The Stop and Go functionality of this system operates as low as 0km/ hr in traffic jam situations. Lane Centring feature should be disabled via the Driver Assistance menu in SYNC before towing. Customers should read the Owner's Manual for details of the limitations of the iACC system before activating. Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances, Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordApp Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee.Speed Sign Recognition will not always detect the correct speed limit and may display a speed that is above or below the actual speed limit. On Ranger models with Satellite Navigation, in some circumstances Speed Sign Recognition will use map data to display the speed limit on the digital instrument cluster. Ford recommends keeping map data updated by fully activating the vehicle's FordApp Connect modem and enabling Connected Navigation Services. Connected Navigation Services are included for 1 year from the Ford Express New Vehicle Warranty start date and available ongoing subject to payment of a subscription fee. 14. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for more information. Trailer Coverage system (requires a genuine factory fit tow bar) supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. 15. Double Cab standard row outboard seats only. 16. Flexible Rack System has a maximum load limit 80kg (dynamic) and 250kg (static). Manual set-up required. Removal of antenna mast recommended when cargo positioned over antenna. Removal may affect availability of radio, satellite and connected services. 17. Zone Lighting will not operate if battery charge is insufficient. The length of time that Zone Lighting will operate depends on the battery charge, the types of lights fitted to the vehicle (LED or Bulb) and other electrical loads connected to the vehicle. The system will automatically turn off after a period of time to preserve the battery's engine starting performance. 18. Eligible vehicles receive Connected Navigation Services for 1 year from the Ford Express New Vehicle Warranty start date, after which time the Connected Navigation Services may cease to be available, or may be subject to a subscription fee. To use Connected Navigation Services, users must have created a FordApp App account (terms apply), have fully activated the vehicle's FordApp Connect modem and have SYNC Location set to 'on'. 19. Use of FordApp is subject to the FordApp Terms and Privacy Policy available on ford.co.nz/fordapp and requires a compatible mobile device, internet access and software (including software updates from time to time). FordApp functionality and appearance may change over time due to software updates. You are responsible for privacy access, mobile network data and voice call services required for your use of the FordApp App on your mobile device, including associated fees. The FordApp App and FordApp Connect modem can only work when both are connected to the telecommunications network. The FordApp Connect modem will only function on the 4G/5G telecommunications networks. When these networks are no longer available, the modem will stop functioning and the connected services and all data transmission via the modem will cease. Ford cannot guarantee that FordApp will be in fully operating condition at all times and the FordApp App may be unavailable or particular FordApp services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device when driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings. 20. Don't drive distracted. Use voice operated systems where possible and don't use handheld devices while driving. 21. Wireless Charging only available with compatible phones. 22. BANG & OLUFSEN® 2024 and B&O® 2024.
